# WELCOME FROM THE PREMIER OF BRITISH COLUMBIA

September 10-14, 2006

## *A Message from the Premier*

As Premier of the Province of British Columbia, I am pleased to welcome delegates from the Canadian Nuclear Society hosting their PHYSOR 2006 Conference at Hyatt Regency in Vancouver. I would like to extend a special welcome to all those who have travelled to our province from around the world.

This year's conference will bring together more than 300 professionals from various nuclear organizations. The conference is an excellent networking opportunity that provides the key players a platform for new discussions and new approaches on nuclear energy, uranium, and environmental protection.

I would also like to recognize the organizers of this event. I commend them for the tremendous hard work and dedication that goes into making this exposition such a success.

On behalf of the people of British Columbia, welcome to Vancouver and best wishes for a great convention.

Sincerely

Gordon Campbell
